EDUCATION

G. Pulla Reddy College Of Engineering — Oct 2022 - May 2026
Computer Science & Engineering— CGPA – 6.36

Sri Chaitanya Junior College — June 2020 - April 2022
M.P.C (XII)

SKILLS

- Programming Languages: Python, C, JavaScript, SQL
- Frameworks & Technologies: Flask, Streamlit, HTML, CSS, React (Basics), Machine Learning, TensorFlow
- Developer Tools: Visual Studio Code (VS Code), Git, GitHub, Netlify
- Core Concepts: Data Structures, Algorithms, OOP, DBMS, Computer Networks, TCP/IP, Debugging, Problem Solving

PROJECTS

DNA Disease Prediction System — Python, Streamlit, TensorFlow, Scikit-learn, SHAP

- Developed a machine learning-based DNA disease prediction application using Python and Streamlit.
- Implemented DNA mutation detection to identify genetic variations and assess associated disease risks.
- Built an ANN model with data preprocessing, feature scaling, and label encoding for disease classification.
- Implemented explainable AI using SHAP to visualize feature importance, prediction probabilities, and individual feature impacts.

Personal expense & Budget Tracker — Python, Flask, My SQL, HTML, CSS, JavaScript

- Developed a Flask finance app with secure authentication, expense/income tracking, categories and budgets.
- Implemented CRUD operations, search, filtering, editing, and deletion for user-specific transactions.
- Built an interactive dashboard with spending breakdowns, monthly trends, and income vs. expense analysis.
- Added budget tracking and automated spending insights, with MySQL for data persistence and GitHub for version control.

AI Job Copilot – Interview Simulation & Evaluation Platform — React, Python, SQLite

- Built a full-stack job preparation platform with resume analysis, job application tracking, and interview preparation features.
- Implemented resume parsing and skill matching to identify missing skills from job descriptions.
- Developed a rule-based interview answer evaluation system with criterion-wise scoring and performance feedback.
- Created REST APIs using Flask and integrated them with a React frontend for interactive interview practice and application management.

CODING PROFILES

- GitHub:
- HackerRank :

ACHIEVEMENTS

- Scored in the 93.92 percentile in Naukri Campus Young Turks 2026, earning a Certificate of Merit.
- Recognized as a runner-up team member in the Fudge Judge event at Brain Wreck-2K23, an intra-college fest.
- Participated in the Game Changers Workshop at AAVISHKAR-2024, a two-day national-level student convention.
- Participated in the Paper Presentation event at JIGNASA 2K24.
